Here Comes the Sun!

20-Grid

To Prep:
*Print onto cardstock and laminate for durability.
(Print one rain cloud game board and one sun page for each player)
*Cut apart suns on dotted lines.
*Locate a die, labeled 1-6.

To Play: (for 2 players)
*Each player needs a cloud game board and 20 suns.
*The first player rolls the die, counts the number of dots, and places that many suns on top of his rain cloud board. For example, if the player rolls a 2, he takes two suns and covers up two of his rain clouds on his game board.
*The first player to cover all of his rain clouds wins!

Variations: 1- If only one person is playing, he continues to roll and count the dots, placing suns onto his game board until they are all covered.
2-The sun page can be used as a cutting exercise before the game is played. Just cut along all the horizontal dotted lines and ask the child to cut along all the vertical lines.
