Roll and Stamp Inserts for Education Cubes

Prep Work:
Print off pictures onto cardstock, cut out, and insert into 1 education cube. If you do not have education cubes, you can purchase them from www.educationcubes.com or make your own with dice with a cardboard box (such as a Priority Mail box).

How to Play:
•Roll the education cube.
•The child names the letter and makes the letter sound.
•The child then uses the Roll and Stamp Graph to graph the results from the roll. We used letter stamps (I pulled out D, B, R, G, L, & I), but you could also use letter stickers. Another option could be to ask the child to write the letter in each space or draw an "x" in the graph.
•Discuss your results afterwards by asking questions such as, "Which letter did you roll the most?" or "Which letter did you roll the least?"
