

Build or Write a Word

and

me

is

not

up

Print off the sight word cards onto cardstock. Cut out and laminate for durability.

Use these word cards to build the sight words in different ways. Here are a couple of suggestions:

1. Place the word cards onto a cookie sheet and spell words with magnetic letters.
2. Glue the words down on a paper, then stamp the letters to each word beside it.
3. If your child is ready, have him write the words.
