

Build a Sandcastle

20-Grid

To Prep:

- *Print onto cardstock and laminate for durability.
(Print one sand pile game board and one sandcastle page for each player)
- *Cut apart sandcastles on dotted lines.
- *Locate a die, labeled 1-6.

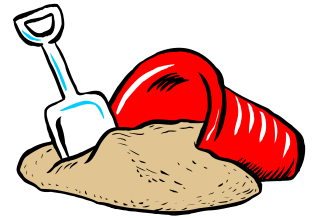

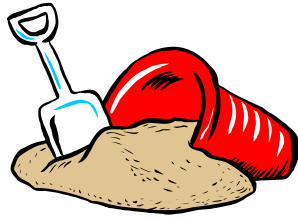

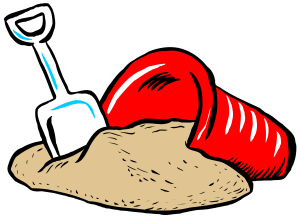

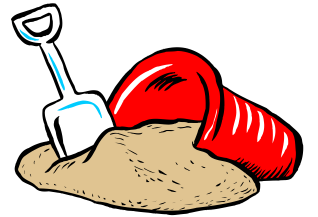

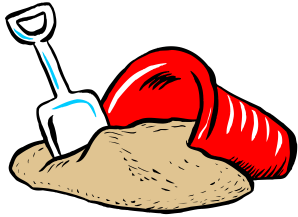

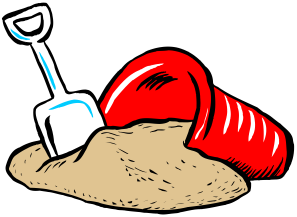

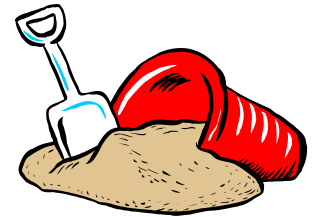

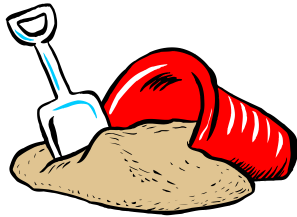

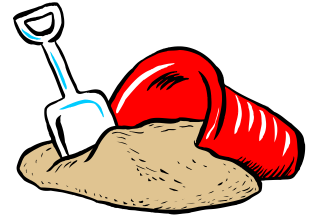

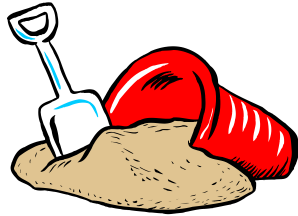

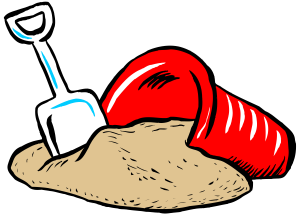

To Play: (for 2 players)

- *Each player needs a sand pile game board and 20 sandcastles.
- *The first player rolls the die, counts the number of dots, and places that many sandcastles on top of his sand piles to build his castles. For example, if the player rolls a 2, he takes two sandcastles and “builds” two of the sand piles into sandcastles on his game board.
- *The first player to cover all of his caterpillars wins!

Variations: 1- If only one person is playing, he continues to roll and count the dots, placing sandcastles onto his game board until they are all covered.
2-The sandcastle page can be used as a cutting exercise before the game is played. Just cut along all the horizontal dotted lines and ask the child to cut along all the vertical lines.
