Print off the sight word cards onto cardstock. Cut out and laminate for durability.

Use these word cards to build the sight words in different ways. Here are a couple of suggestions:

1. Place the word cards onto a cookie sheet and spell words with magnetic letters.
2. Glue the words down on a paper, then stamp the letters to each word beside it.
3. If your child is ready, have him write the words.

I've included words from the entire curriculum on pages 2-3.
