

Thanksgiving Syllable Picture Cards

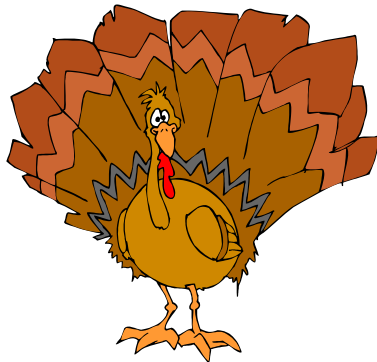

For use with a pocket chart. If you do not have a pocket chart, any work space will do (such as a table top or floor).

To Prep:

- Print cards onto cardstock, cut out, and laminate for durability
- Optional: Print the word on the back of each card or the number of syllables to make the activity self-checking

Directions:

- Shuffle all the picture cards.
- Place the number cards at the top of your workspace
- Pick up one card at a time (you could take turns with child), say the name of the picture like this: "Pil-grim", separating the sounds
- If necessary, clap and count the syllables
- Sort the picture under the correct number, creating columns as you go.
