

Wrap the Presents Under the Tree

20-Grid

To Prep:

- *Print onto cardstock and laminate for durability. (Print one toy game board and one present page for each player)
- *Cut apart presents on dotted lines.
- *Locate a die, labeled 1-6.

To Play: (for 2 players)

- *Each player needs a toy game board and 20 presents.
- *The first player rolls the die, counts the number of dots, and places that many presents on top of his toys to "wrap" them. For example, if the player rolls a 2, he takes two presents and wraps two of the toys on his game board.
- *The first player to wrap all of his presents, wins!

Variations: 1- If only one person is playing, he continues to roll and count the dots, placing presents onto his toy game board until they are all covered.
2-The present page can be used as a cutting exercise. Just cut along all the horizontal dotted lines and let your child cut along all the vertical lines.
