Cut it Out! Pack

Intro and Instructions

In this Cut it Out! Pack, you will find four levels: straight lines, curved lines, zig-zag lines, and shape puzzles. My hope is that this pack will grow with her and your child as cutting skills mature.

I desired to create ideas in this pack that had extension activities beyond just cutting practice. Here are some ideas for extending the activities:

• **Cut It Out! Strips** - After the child cuts out all the strips, use the cards as counting cards or create patterns together.

• **Cut it Out! Cutting Cards** - After the child cuts them up, mix them up to create picture puzzles. The pictures help to make the activity self-correcting. Once matched up, the child can glue the pictures down on paper.

• **Cut it Out Shapes** - Once cut out, the child can glue them down to the template to create a picture.
Cut it Out! Strips Level 1 - Cut on horizontal black lines to create cutting strips for child.
