Roll a Word

For use with education cubes. If you do not have education cubes, you can purchase them at www.amazon.com (they are called photo stacking blocks), make your own cubes with priority mail boxes, or adapt this activity without use of the cubes.

To Prep:
• Print onto cardstock for durability (you can also laminate inserts, but it’s not necessary).
• Place all the onset cards (blue) into one cube and the rime inserts (red) in another cube.

To Play:
• The student rolls the onset cube, then rolls the rime cube.
• Slide the cubes side-by-side to “spell” each word.  
  Example: *
• Read each word made.
• As an extension, the student can use the Recording Sheet to write the rolled words.

Write the onsets on the papers stapled above

Draw pictures of the -og words on the papers stapled above

Directions:

Cut apart papers on the next few pages. Once papers are stapled into place, the student writes 6 different onsets (suggestions are on the bottom of the next page, such as d). Once the og is added, the student draws a picture that corresponds with the new word (dog) on the stapled paper on the right.

After all the words and pictures are finished, ask the student to flip through the chart and match the words to their pictures.
Onsets could include, but are not limited to: b, f, fr, l, d, cl, j & h

**BINGO Directions:** Print and cut out cards. Place them in a pile face down. Players take turns drawing a card and reading the word. All players look for the word on their board and cover it if they have it. The first player to get three in a row wins.

*Because there are not enough real OG words for this game, I have included 3 nonsense OG words (marked with an *). Make sure all players know these are nonsense words and can read them before playing.
